

Implement the Top hat technique as a Morphological operation to dilate the foreground regions based on Open CV

Code:

```
import cv2
import numpy as np
from google.colab.patches import cv2_imshow
from google.colab import files

# Upload image
uploaded = files.upload()

# Read image
img = cv2.imread(list(uploaded.keys())[0])

# Create kernel
kernel = np.ones((5,5), np.uint8)

# Apply Top Hat operation
tophat = cv2.morphologyEx(img, cv2.MORPH_TOPHAT, kernel)

# Show original image
print("Original Image")
cv2_imshow(img)

# Show Top Hat image
print("Top Hat Operation")
cv2_imshow(tophat)
```

Output:
