

Implement the image scaling techniques to resize the images to both bigger and small sizes

Code:

```
import cv2

from google.colab.patches import cv2_imshow

from google.colab import files

# Upload image
uploaded = files.upload()

# Read image
img = cv2.imread(list(uploaded.keys())[0])

# Resize to bigger size
bigger = cv2.resize(img, None, fx=2, fy=2)

# Resize to smaller size
smaller = cv2.resize(img, None, fx=0.5, fy=0.5)

# Display images
print("Original Image")
cv2_imshow(img)
print("Bigger Image")
cv2_imshow(bigger)
print("Smaller Image")
cv2_imshow(smaller)
```

Output:

Original Image

Bigger Image

Smaller Image
