

Implement a function to reverse the frames of the video to create a video in reverse mode using Open CV.

Code:

```
import cv2

# Read video
cap = cv2.VideoCapture("video.mp4")

# Store frames
frames = []

while True:

    ret, frame = cap.read()

    if not ret:
        break

    frames.append(frame)

cap.release()

# Display video in reverse
for frame in reversed(frames):

    cv2.imshow("Reverse Video", frame)

    if cv2.waitKey(30) & 0xFF == ord('q'):
        break

cv2.destroyAllWindows()
```

Output:
